

MAKING THIS, OUR HOLIDAY ANNOUNCEMENT.

We appeal to the fair mindedness of the public, ever since our advent as Boot and Shoe Dealers we have pursued the same methods of doing business,--offering none but goods such as we should like to be offered, selling at one price and at such a profit as is consistent with honorable business methods. In the 36 years of doing business you will not find bargains sales, goods purchased for nothing and sold for nothing but a song, no dissolution sales, nothing of the kind that attract people and make them think we were giving things away. If misrepresentation had been our policy, could we have blinded the public all these years?

We wish that they, who are seeking to get full value for their dollar, would inspect our goods, compare our prices with others, see if our line of shoes, rubbers, overgaiters, leggins, gloves and mittens, is not as we represent, honest values, the results of experience and cash buying.

When a railroad company wishes a bridge built they do not consult an all around engineer; when a banker wishes his accounts verified, he does not consult a general accountant; when a man is going blind he goes to an eye specialist; why should you not consult us about your needs in foot wear?

We have been devoting all of our time to this business and common sense must tell you that we know our business. Put your case in our hands and feel yourself secure, and know that you are being treated as only the specialist can do it.

F.C. EBERLY.

FED HIS SQUASH ON MILK. When Opened This Wonderful Vege-

table Contained Several Pounds

of the Finest Butter.

Most every boy on a farm knows how to fix up squash by feeding them milk so that they will grow to prodigious size, his friends are to be accredited. The Unadilla youth determined to produce a prize squash that would make all other prize squashes ever raised look like marbles in comparison.

Accordingly he clipped the end of the vine and immersed it in sweet milk. in time the vine took as much as a quart of milk a day. The squash grew beyond all expectations, and was eventually exhibited at the Morris fair, and

it easily won a premium of ten dollars. But the most surprising part of the story is yet to come, according to the narrator, whose reputation for veracity has never been questioned. The squash was cut the other day, and it is alleged that it contained seven pounds and fourteen ounces of fine, rich butter, equal if not superior to any made last year at the creamery. It is to be greatly regretted that the squash was seed-

smail Potatoes. Potatoes in Greenland never grow larger than marbles.

Brings Success. Sincerity is the secret or ability .-Chicago Tribune.

I have used Goodhair Soap with apfend results, and consider it the best hair medy ever manufactured. It makes the ir exceedingly light and fluffy and shine is salk.

CHURCH IS 224 YEARS OLD

Friends' Meeting House in Pennsylvania Has an Interesting History -Anniversary Is Held.

anniversary of the Friends' meeting | -Cincinnati Enquirer. but a Unadilla (N. Y.) youth has house near Twin Oaks, Pa., was celesmashed all records, if the statements of | brated the other day, and the occasion was observed by a circular meeting. which was attended by Friends from Chester, Philadelphia, Media, Radnor of logs, was used for 50 years. The

present building was erected in 1769. In the south doors of the ancient edifice are ten bullet holes, made by British soldiers, who passed down the Chichester road on their way to Philadelphia. Friends ran behind the stone structure for protection, when the soldiers fired a volley. Three bullets were imbedded in one door and seven in the other. The same doors are there, and they hang on the same

hinges. An immense key, forged and filed with rough exactness, opens the lock it turned 135 years ago. In the women's section of the building is a fireplace, built when the meeting house was erected. An ancient stove is also used in heating the edifice.

Growing More Serious.

The name of the commander of the Baltic fleet is now reported as Rozhdestvensky. We object to the alphabetical increase carried by this amendment. The Nashville American remarks that next thing his name will be reported as Whazzedoitfurstraven-

Popular Ducks.

Thirty-two ducks belonging to a man in Benwood, W. Va., are said to have become drunk from drinking water into which a cask of whisky had been spilled. Now for a scramble to get those particular ducks for Sunday dinner.

ampress Donates.

The dowager empress of China has contributed a sum equivalent to about \$130,000 in American money toward the formation of a Chinese branch of the Red Cross society.

Indications.

Ireland Copper Mines.

Copper mining once flourished in Ireland. The Ballymurtagh mine, in Wicklow county, averaged 6,000 tons of copand other points. The first building, per pyrite per annum between 1840 and 1843. Desultory prospecting is going on at the present day in several localities.

Men Outclassed.

She-Women may gossip sometimes, but they have better control of their tongues than men have. He-You are right. Men have no con-

trol whatever of women's tongues .- Chicago Record-Herald.

Wine of Cardui Cured Her.

213 South Prior Street, ATLANTA, GA., March 21, 1903.

I suffered for four months with extreme nervousness and lassitude. I had a sinking feeling in my stomach which no medicine seemed to relieve, and losing my appetite I became weak and lost my vitality. In three weeks I lost fourteen pounds of flesh and felt that I must find speedy relief to regain my health. Having heard Wine of Cardui praised by several of my friends, I sent for a bottle and was certainly very pleased with the results. Within three days my appetite returned and my stomach troubled me no more. I could digest my food without difficulty and the nervousness gradually diminished. Nature performed her functions without difficulty and I am once more a happy and well woman. OLIVE JOSEPH,

The Gas Engine.

The gas engine, which is one of the newest fads of the day, and a very useful and important one, dates back at least to 1820. In that year an internal combustion motor was shown in operation in Cambridge, England. It is said to have been invented by Rev. W. Cecil, of Magdalen college.—
